

# I Am In Love

Written by Tracy Howe, registered with ccli

Just give them what they want  
Give them more than enough, more than enough  
Give them everything they've ever dreamed  
As for me I long to be where I can see your face

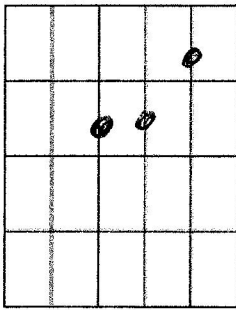

*Chorus is the same progression but played faster.*

I am in love with you

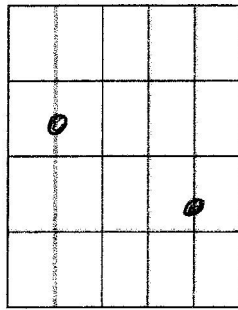

*Am - G/B - C - Dm - G/B*

In the morning I will ask  
Show me your face, show me your face  
That will be enough to get me through the day  
More than enough, more than enough

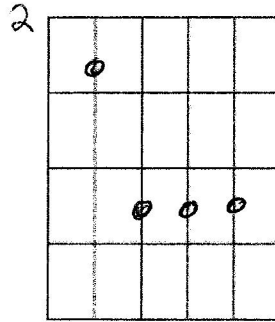

I am in love with you  
You are everything I have ever dreamed
