

Ruin Me

Written by Tracy Howe, registered with ccli

CHORD
COMING!

In the season I have left
With the sun falling down upon the days, I remember
What you've done for me, what you've been for me
And the ways you've cut your hands holding on

So ruin me with your love
Ruin me just enough to never go back to what I was
V2

sorry :)

When it's all said and done
I trust you love me more than I ever could, I remember
Things you've said to me, how you bled for me
In your own final hour, holding on

V3

I remember what it felt like
When I first beheld your face in morning light, I remember
It's enough for me, it's enough for me, it's enough
